Art Students Vie For Program Designing Honors

Winning Design Will Be Used for Program Cards at Art Convention.

ENTRIES DUE TODAY

All Students Eligible to Enter —'Runner-up' Designs To Be Exhibited at Meet.

A program card for the dance which will be given as the final evening's entertainment at the Southeastern and Western Art Association Convention meeting in Nashville, April 1-4, will be designed by some member of a K. H. S. art class. Any student who wishes, though, may submit an entry for the honor. However, all entries must be in the hands of Miss Virginia Parker by 3:15 this afternoon. The winner will be announcèd as soon as the judges decide.

The program will be in the form of a block print in two colors. The best designs will be on display. This work will be the only art on exhibit from K. H. S.

The evening's entertainment will

(Continued on Page 4)

Council Members Speak In Chapel

Student Council's annual chapel program for incoming freshmen was held yesterday morning in the assembly hall. Johnny Walker, assistant principal, presided during the program.

Members of the Council, in brief speeches, discussed various departments of the Student Council, and their use to the students and the school. The highlights of the program were speeches by the following: President Searle Gillespie on "What the Student Council Is"; "The History of the Student Council in K. H. S." by Evelyn Darst; and "How One May Become a Council Member" by Helen Bales.

The honor system of the Council, which awards annually to the member first reaching his or her goal in work accomplished and interest shown the honor pin, is being put into effect the first six weeks of this term instead of the second six weeks, which has been the custom in the past.

In the re-applications for charters in the last issue of the paper were omitted the names of A. L. Jobe, one of the first to send in his re-application, and H. H. Hayhow.

J. D. MOORE SPEAKS TO LOWER CLASSMEN

Speaking before the students in lower class chapel Tuesday, Dr. J. D. Moore, school doctor, emphasized the importance of having good health.

"Guard your health whenever it is necessary," the speaker advised.

Charles Martin, a new member of the K. H. S. faculty, sang two solos, "The Big Bass Viol" by Bohanan, and "Home on the Range". Mr. Martin was a member of the glee club when he was a student in Knoxville high school.

Several selections by the band featured last Thursday's upper class chapel. Under the direction of W. C. Crouch, the band played several marches, including the "Gloria March", "Bravura", "Billboard", the "Stars and Stripes Forever", and the football song, "Down the Field".

Gruen Offers Pupils $4,000 For Essays

Contest Is Open To All High School and Preparatory Students.

With prizes amounting to $4,000, the Gruen Watch Company is sponsoring an essay contest open to all high school and preparatory school students.

To become eligible for a prize, a student must write an essay of not more than 250 words on the subject, "The Importance of Time". All essays must be clipped to official entry blanks and sent to the Contest Department, Gruen Watch Company, Time Hill, Cincinnati, Ohio, before midnight of March 15. Entry blanks may be obtained at Tindell's, 520 Market street.

Prizes of $500 each will be awarded to the student submitting the best essay and also to the school which he attends. For the second and third prizes, $250 and $100 will be awarded in the same manner. The authors of the 50

Rocket Ship Proves Temporary Failure

Officials Say It Will Do 500 Miles Per Hour.

America's first rocket plane proved a temporary failure when it failed to function during an experiment held near Newark, New Jersey, Sunday afternoon.

The all metal ship was scheduled to carry 2500 stamp collector's letters from the frozen surface of Greenwood Lake, across the New Jersey state line and into Newark, a total distance of two and a quarter miles.

The ship is built to attain an average speed of over 500 miles an hour, being propelled by a single discharge of the most explosive alcohol.

Following two futile attempts to make the rocket operate, Frido W. Kessler, president of the Rocket Airplane Corporation of America, announced further experiments would be postponed until Sunday of this week.

Pupil May Win 'Bausch - Lomb' Plaque Prize

Award Will Be Given To Student With Greatest Scientific Capacity.

As a means of bestowing honor upon the student who demonstrates the greatest capacity for scientific work, the Knoxville high school science department will award to a member of the graduating class the Bausch and Lomb Honorary Science Award at the completion of the present term. Only seniors are eligible for the prize.

All departments of science may compete including biology, physics, and chemistry.

The plaque consists of a large bronze figure, embossed on metal, holding branches of ornaments representing light and knowledge. It is assembled well and beautifully designed.

"This is the first time the award has been made, and it has been planned to offer it semi-annually hereafter to a student of the graduating class," commented C. A. Browning, head of the science department.

Judges for awarding the plaque will be the faculty of the science department. Their decision will be absolutely final.

J. WALKER ELECTED CHAIRMAN OF HI-Y

Johnny Walker, assistant principal of K. H. S., was elected chairman of the East Tennessee Division of the State Hi-Y, Saturday night, by a committee of the various national and state Hi-Y advisers.

His duties will be to coordinate the work of all Hi-Y's in this section, from Bristol to Chattanooga.

This is the first time such state divisions have been made. The purpose is to more closely bind the Hi-Y's of each respective section to each other. State Hi-Y conventions, hereafter, will consist of members, who will represent three respective sections, East, Middle, and West Tennessee, rather than individual clubs as formerly.

Mr. Walker's term as chairman of this section includes one year.

Vocational Department Gives Test To 175 Seniors

As another means of helping graduates find their respective places in life, the Vocational Guidance Department of the Knoxville city schools has given a vocational inventory to approximately 175 seniors, who graduated in January.

Each senior who took the test was placed in one of eight vocational classes. He was rated according to his certain type of mental ability and personality.

A larger number of students proved better fitted to enter into business than any other vocation, their number being 41 out of the 175; twenty-nine were inclined to enter the Law and Government field; twenty-eight leaned toward Social Service work; twenty-six had the qualities necessary for Mechanical Construction; twenty-two were suited to Literary work; seventeen were artistically inclined; eleven were adapted to enter Scientific types of work, while only two fitted into Mechanical designing.

"The number who rated highest in Social Service work is larger on the average, than students of New York City, who have taken this test for the last four years. This fact is probably due to the attitude of Southern people toward Social Service and Religious work. The number who were scientifically inclined seems rather small considering we live in a scientific age. Other figures proved to be normal," stated Curtis Gentry, director of Vocational Guidance.

Although there was no test made of the aptitudes of those in music, seven of the seniors stated that they wanted to select music as a vocation.

Permanent record cards have been made of all the seniors who took the test. These have been filed in the Administration building. The cards contain information concerning the person's vocational score, health record, and all such information which would be of value and interest to employers.

Senior Hi-Y Makes Plans For Semester

New Members Received Into Club at Regular Meeting Held February 6.

Taking an early start, the Knoxville high school Senior Hi-Y club has arranged a complete program for this semester.

On February 6, new members were introduced to the club and signed pledge cards. Frank Vincent, Y. M. C. A. adviser, talked on the significance of the signing of the pledge cards. J. Clyde Lowery, faculty adviser, spoke on "What the Hi-Y Is"; W. E. Evans, principal of K. H. S., told what the Hi-Y could mean.

Having formally pledged themselves to the Hi-Y during the induction ceremony at Camp Hoffeld last night, the list of members admitted is as follows: L. R. Beard, Jack Bell, David Clark, Neil Cooper, Freddy Elmore, Elmore Godfrey, Bill Luttrell, James Luttrell, William Lowery, James Martin,

(Continued on Page 4)

A. C. Hutson Will Speak Over Radio

Speaker is Supervisor of Child Personnel Division.

A. C. Hutson, supervisor of child personnel division, of Knoxville city schools, will present a number of sketches on "Child Adjustment", on the radio program today. The sketches will be portrayed by various students.

The Open Forum will be in charge of the broadcast Monday, using as its theme, "A Salute to the Board of Education". Interviews have been obtained from Dr. Harry Clark, Fred Stair, Roscoe Word, Mrs. C. D. Beardsley, Dr. H. E. Christenberry, and Dr. H. C. McClain. These will be given by Fritz Reeves, Beverly Harbinson, Tom Martin, and Wilma Thornton. George Hendrickson will render a solo, accompanied by Ruth Word.

Wednesday's program will be in charge of the Home Economics department, under the supervision of Miss Guerrant Tatem.

Several students from the English department will give talks on George Washington next Friday, with Miss Mary Nuchols as director. Patriotic music will also be given.

SIR WALTER SCOTT'S PLAY TO BE SHOWN

"The Lady of the Lake", a poem by Sir Walter Scott, will be presented here, Wednesday, February 19, featuring Percy Marmonth and Benita Hume.

The artistic version of the famous poem will have an appropriate musical background. The scenes are all filmed among the hills and dales of Scotland, on the spot where Scott wrote this lovely poem.

The beauty of the famous poem is greatly enhanced by the stirring action of this production.

A short reel on science will be shown, too.

It is the present plans of the movie committee to bring more pictures like this in the future. These types of films are not only related to high school English but presents a historical background to the student.

N.I.H.S.S. To Give 75 Scholarships To Best Pupils

Outstanding Juniors, Seniors in Journalism, Debate, Dramatics Eligible.

NORTHWESTERN IS HOST

Roswell Freedman, Former Editor of the B. & W., Winner in 1934.

Seventy-five full tuition scholarships, totaling $3,750, will be awarded to the country's outstanding high school students in journalism, debate, and dramatics by the National Institute for High School Students, to be held at Northwestern University, June 29 to July 31. They will be granted to juniors and seniors, both boys and girls, who are in the first quarter of their classes.

Roswell Freedman, editor of the Blue and White last year, was the winner of one of these awards in 1934. He is now studying journalism at Northwestern.

The Institute, attended in the past five years by students from forty-four different states, will be held under the joint direction of the School of Speech and the Medill School of Journalism of Northwestern University. Classes will be taught by members of the faculty of the two schools, aided by a number of visiting teachers and professional men.

Theory and practice will be combnied in all the courses. Journalism students will work on the summer edition of the Daily Northwestern, in addition to their classes in copyreading, news and sports reporting, and editorial and feature writing, while the debaters and dramatists will take part in a number of plays and debates and

KHS RADIO TRYOUTS AGAIN POSTPONED

Annual WROL radio auditions for the selection of Knoxville high school announcers has again been postponed due to disarrangements with the station.

In 1934, announcers were chosen about the second week of the school term, each one taking charge of the program on his respective day.

S. B. Parker, chairman of the K. H. S. radio committee, has not yet announced the exact date the station will hold tryouts.

IS IT NEUTRALITY WE WANT?

America cannot hope to avoid European wars by following a flexible neutrality policy which, instead of fixing a firm indifference and alienation, merely prohibits abnormal trade with belligerents. The results of the Nye Munitions investigation committee has aroused popular supposition that the purpose of neutrality legislation is to penalize war profiteers. When the emotions of the masses are roused against an atrocity, vengeance is blind. While the interests of American financiers and munition manufacturers may have been closely linked to the success of the Allies, we cannot overlook the influence of the United States' traditional policy of "freedom of the seas", especially in regard to future wars.

Idealistically America persists in international economic and social equity. Despite her failure to "wage war to end war", to establish universal democracy, and to make the seas free for free trade, we continue in the role of the pacific idealist.

If all nations respected the rights of each others maritime commerce, then there would be no need for one country to unequivocally demand that its trade go unmolested. But such is not the case. Warring nations do not stop to consider "rights" when a recognition of them would result in defeat. Blockades constitute an important part in modern warfare and no nation contemplates refraining from that which would prove to its advantage.

For months before our entrance into the World War our ships sailed under neutral flags in a war zone. Because America had stated that the seas were free, that the trade of neutrals was free, the mechants did not suppose themselves susceptible to interference. That, however, was not reality for both Germany and England unobtrusively attempted to cut off the supplies which American merchant men were indiscriminately carrying to both countries.

A restriction to limit trade to pre-war levels carries with it a protection of that trade. Such a measure would appease only those who are disillusioned, for trade being carried on at the present time with foreign countries if so protected in time of war would jeopardize the peace of America.

When the threat of war looms before us, the prestige which America might sacrifice in relinquishing her traditional freedom of the seas policy merits little consideration. To completely isolate ourselves would no doubt cause internal derangement. But if it is neutrality we want, the prospect of financial sacrifices will not thwart our efforts. No amount of lucrative loss is comparable to the loss of human lives.

TEST TUBES

According to the report of the vocational inventory tests given to 175 Knoxville high school seniors, only 11 of that number rated highest in scientific aptitudes. "This number," says the report, "is smaller, we think, than it should be in this scientific age."

Tomorrow's scientists are now attending school. If we are to accept this proportion as a basis for an estimate of the number of future scientists the progress of our civilization will have receded. To those who are now training in the laboratories of our schools we must look for the humanitarian services which their experiments may contribute in combating disease, in ridding man of pestilences and in raising life to an ever higher level.

Walter B. Pitkins, writing in the November issue of The Rotarian, considers chemistry a profitable vocation for young people who contemplate a scientific career.

"Opportunities," he states, "are excellent. The demand for well trained chemists today far exceeds the supply. Registration with professional agencies for unemployed chemists is well below normal. The case of the young chemist who was offered 13 jobs in two months last summer is by no means unique."

The laboratory is a paradise for creative minds. Those who possess ingenuity, a relentless determination and who would like employment in a field which has every assurance of continual expansion, may well choose a scientific vocation.

When reports are issued of the next vocational inventory test, we hope that a greater number of students will have availed themselves of the opportunity which Knoxville high school offers for scientific development.

The Spectator

This week's nomination for "Princess Charming" is none other than Eleanor Shelton.

—o—

Since we're nominated a "Princess Charming" for this week, we may as well complete the idea by putting up Wyman Clark for "Prince Charming".

—o—

Herbert Turner has fallen in love but he will not answer any questions. You'd better dodge us, Herbert, we might make you talk.

—o—

Len Broughton recites history like poetry. Gee, wonder if he talks like that to his girls?

—o—

"Oh! those big brown eyes." That's what Elizabeth Forrester would say to Lynn Humphrey.

With whom does Ruth Fielden go? It's the hardest job we've had getting information, since the attempt to learn how many songs have ever been written.

—o—

William Ogden and Margaret Post. Where, oh, where, was it their names appeared together?

—o—

The boys in Mr. Bryant's fifth period history class are singing "The Girl with the Beautiful Hair". You see they don't know her name yet.

—o—

It has been reported that Imogene Dodson meets Herbert Duggan every day after group.

—o—

Could it be Norma Cochran's golden curls that attracts so many boys?

—o—

The old saying that boys prefer blondes may still be true, but it's the opposite with girls. At least with Opal Brogden.

—o—

Margaret Cunningham's dancing brown eyes have won Allen Howell's affections.

—o—

Sam Kaserman has fallen for Laura Quinn.

—o—

Nadine Wilson apparently does not care much for boys. Don't take our word for it though, it might not be true.

—o—

You've heard of season tickets to football games, etc., but have you ever heard of a season smile? Townsend Trammell has one.

—o—

We might say here that Neoline Childress is cute in her uniform; also Alice Cox, Forrest Ellison, Ruth Anderson, Frances Edmonds, Elizabeth McKelder, and Louise Hines.

BOOKS

By Blue Pencil

YOUNG WALTER SCOTT
Elizabeth Janet Gray
The Viking Press, $2.00

THIS book was written about a real boy who was not only gay, whole-souled, but vigorous. Walter Scott lived in Scotland during the eighteenth century. Although he was lame, he could walk as far and climb as high as any other boy his own age.

This is the story of a boy who might have retreated into the safe glory of school room brilliance but who preferred to meet the other lads on their own grounds. He led the George Square lads and fought with the Green Breeks.

Walter was a very shy lad who met the great poet Burns and named for him the author of a quotation. He trampled all over the countryside of Scotland with his high school companions to fish in a sparkling clear stream.

The author is of Scotch descent. She worked several years gathering material concerning Scott. In 1934 she went to Scotland to find out for herself how far the boy had to walk from his home in George Square to the high school; how big a feat it was for a lame boy to climb Arthur's Seat and Salisbury Crags; to wander among the groves in Greyfriar's Kirkyard, to follow the Tweek near Kelso, and sniff the heather in Pentland hills.

At The Theatres

By Anna Rhodes

Best Shows Next Week:

"Exclusive Story", starring Madge Evans, Franchot Tone, and Stuart Irwin, at the Tennessee, today.

"Rose Marie", starring Jeanette MacDonald and Nelson Eddy, Saturday-Tuesday, February 15-18, at the Tennessee.

"EXCLUSIVE Story", exposes a policy racket worked by gangsters on grocerymen, laundry owners, and druggists. Madge Evans, daughter of one of the victims, starts a crusade when she goes to a newspaper and enlists the aid of Franchot Tone, the paper's attorney, and Stuart Erwin, its ace reporter.

The popular operetta "Rose Marie", is brought to the screen with Nelson Eddy and Jeanette MacDonald starring. Jeanette is the opera star, who leaves fame and fortune to go with Nelson Eddy, of Northwest Mounted Police.

Trilly Says--

By Trilly the Trilobite

THE senior Girl Reserve club had a best-date banquet last Wednesday night for the seniors who had just graduated. MARGARET POST, president of the club, was a GRAND toast mistress! You should have been there to have heard LILLIAN WRIGHT'S reading. She was a typical country girl (dressed in red checked gingham, green earings, etc.) who related her experience of being taken to a "VAUDEVILLE"—I believe that was what she called it. It was a dream! I saw GEORGIANA IRWIN, PHYLLIS TRENHOLM (last year's president), and GLADYS KENNEDY.

Everything's on the GO now that the clubs of K. H. S. are started on the new term's activities. The T. N. T. club entertained with a tea for their rushees at MURIEL CLARK'S home in Woodhill Thursday afternoon. The club colors of green and gold were carried out in the refreshments. Some of the rushees enjoying this affair were ELOIS OWENS, MILDRED POLK, and MARGARET MOORE. I also saw BARBARA FOUST, MARTHA JEAN OSBOURNE, and CATHRINE ROBERTS.

Reports keep coming in on how well former K. H. S. students are getting along in other schools. SUMNER DRAPER has been enjoying the winter sports at Exeter, New Hampshire — tobogganing, ice hockey, and skiing—in 15 degrees below zero weather, too! Doesn't that sound exciting? He is a student at Phillip Exeter Academy there.

When the grades come out at the end of the last six weeks many pupils will be desiring the 3 A's (A.A.A.) that the Supreme Court has no need for! MISS NEUBERT, what do you think?

Don't our new sponsors look swell in their uniforms? Let's give three cheers for them—STAND UP! STAND UP!!

The planning for the senior week activities in May is already under way. JO ELEANOR GALLAHER has started work on the Senior Girls' style show which will probably be about the middle of March or the first of April.

School Daze

By Betty Dafferner

IF the old adage, "Practice makes perfect" still holds good, Herman Rose will probably be an expert hitch-hiker when spring rolls around. He sits in the geometry class with his thumbs in the air.

—o—

Charlie Maskall is always the first one to learn the latest songs. He knows almost all the words to that new one that goes like this, "I blow through here . . . ." Get him to sing it for you.

Betty Dafferner

—o—

Mr. Friddle (a student teacher: "Why is the date 1452 important in history?"

Bob Cunningham: "It is important because America was discovered forty years later."

—o—

We could have sworn the fountain downstairs spouted more than any other fountain but I hear that the one over at the Hill spouts so high they've appropriately named it "Old Facefull".

—o—

This one is borrowed from Mr. Parker:

Old Lady: "Where do you get off this car?"

Conductor: "It don't make any difference; it stops at both ends."

—o—

Do you like the new book stickers? They are really pretty. By next term, if they don't run out of bright colors, we will have a jolly nice lining in our books.

—o—

Believe Me If . . . .

If all those terrible D's
Which I gaze on sadly today
Were to change by tomorrow into
A's or B's
Like fairy gifts coming my way.
Thou wilt still be a D, as this moment thou art;
Let thy ugliness grow as it will.
And on the report card each space
shall be D
Entwining itself permanently still!

KADET KOLUMN

Cadets winning first place in the regular weekly inspection, Tuesday, were:

"A" Company

Billy King, Holbert Simmons.

"B" Company"

Larry Partridge, Charles DeVoise, James Smith, Weston Hyde, Bob Johnson, Elmore Godfrey, Dick Evans, George Beal, Ralph Stair, Ray Goolsby, Frank Bailey.

"C" Company

Girls' Tourney In Progress

Hammond, Griffin, Gile, Ramsey's Teams Winners in Second Series of Games.

FOUR TEAMS DEFEATED

Caldwell, Sutton, Word, Patterson's Teams Defeated in Second Games of Tourney.

In the basketball tourney Friday, February 7, Reba Hammond's team defeated Frances Caldwell's team by a score of 4-0. Renfro tallied 3 of the four points and Jennings made the extra score. Fay Griffin's team was victorious over Telena Sutton's team by a score of 8-7. Griffin led her team, making 6 of their eight scores, while Reed led the losers scoring three of their 7 points. Sutton and Oakes played well for the losers.

At the games Tuesday, February 11, Ruth Word's team was defeated by Hazel Gile's team by a 6-2 score. Moore made the only score for the losers. Curtis and Berney were outstanding players for the winning team. In the second game Ezelle Ramsey's team outplayed Rachel Patterson's team, the final score reading 11-7, E. Ramsey accounting for her team's victory, scoring 6 out of 11 points. Bailey was next for honors, making 5 scores. Patterson and Ogden starred for the losers.

In next Tuesday's games Griffin and Ramsey will be set to play against each other and Hammond is slated to play against Giles. It is predicted that these games will be exciting since both teams are evenly matched, and both have won over their opponents by large scores.

The details cannot be obtained, but it has been stated that Warren and H. D. Butters go for twins in a big way.

SPORT DOPE

KHS Gridders Hold Indoor Drills; To Practice At Winona Soon

By Bob Allen

While we stamp around in the cold, the Knoxville high school gridders are sweating it out in the gym in an early spring practice. Coach Wilson Collins is giving his football candidates work in the fundamentals of that grand old sport, and is also running a few plays. There is a squad of about 35 boys engaged in preparation for outdoor spring practice.

Bob Allen

When the cold wintry blasts subside, the Trojans will go prancing outside to a more strenuous practice on the field on Winona street.

The purpose of the early practice is to make way for baseball and other spring sports.

By the way, the intra-mural football program so recently developed at Knoxville high school will prove a large source for future Trojan varsity stars. The well developed activity has brought several potential stars to the front for next year's Blue and White team.

This town just can't seem to get its fill of amateur fisticuffs. With the News-Sentinel - American Legion Golden Gloves tournament in the past, arrangements are being made to present a Southern Appalachian Golden Gloves tournament for the Negro "Simon-pures".

Although time arrangements have not been definitely made, the show will take place sometime in the next few weeks.

All the dusky leather-slingers in this vicinity are invited to fight in the tournament. The young Negro athletes will be required to be in good physical shape before they will be allowed to compete.

This is a marvelous opportunity for those "would-be Joe Louis'es" to prove their prowess in the roped square.

While on the subject of boxing, it is reported that Jack Dempsey is training a group of young fighters to become the so-called "White Hopes" if the dusky Joe Louis should take the crown from the head of Champion Jimmy Braddock.

The Central high school Bobcats begin their last week of basketball next week, as they play games with our Knoxville high school Trojans and the Bradley County high school Bears.

The Bobcats have had only a fair team this winter, but they have steadily improved since the beginning of the cage season. They will probably give their opponents plenty of competition in the coming basketball tournament.

Prospects for this season's tank team are taking on a favorable look. The Y. M. C. A. team, which has made such a remarkable record thus far in the season, is almost entirely composed of Knoxville high school boys. Yes, sir, there is little or no sleep to be lost over that phase of our minor sports program.

It seems that the members of three of our minor sports teams are bent on taking the teams from McCallie School of Chattanooga into camp. The tennis team, golf team, and swimming team are seeking matches with the McCallie aggregations.

Trojan Quintet Defeats Alcoa Hi In Second Half Rally, 26-16

'Puss' Hodge Leads Trojans With 10 Points; Sparks Leads Alcoa With 8.

K. H. S. MEETS YOUNGS

Contest Begins at 2:15 This Afternoon—KHS Favored To Triumph.

Although leading by a score of only 11-9 at the half, Knoxville high school's Trojan quintet came back in the second half to defeat Alcoa high school's five by a 26-16 score. The contest took place at Alcoa last Tuesday night.

"Puss" Hodge led the Trojans with 10 points to his credit. Luttrell and Wrifford were outstanding on the defense. Sparks was high-scorer for the Alcoa quintet with 8 points.

This afternoon the Trojans meet the Young high school Yellowjackets in the K. H. S. gym at 2:15 p. m. Last week the Blue and White team swept to a 37-20 victory over Young's 'jackets. However, this was Young's first defeat of the season, and the Yellowjackets may prove a much stronger opponent than is expected. A special chapel schedule will be run on Friday so that school may close a 2 to'clock.

The Trojans play only two more games before the tournament.

Lineups for the Alcoa game are as follows:

K.H.S. (26)	Pos.	Alcoa (16)
Hodge 10	F	Davis 2
Cottrell 4	F	Boys 2
Gaines 7	C	Sparks 8
Wrifford 3	G	Byron 4
Luttrell	G	Johnson

Subs: K. H. S.—Sowers 2, Remine, Higdon. Alcoa—Atchley.

Official: Epstein.

Squad Captains Chosen For Term

Squad captains have been chosen for the girls' gym classes, and these leaders will be in charge of their squads for the remainder of the term. The following squads ranked highest in their respective classes for the first inspection:

V. Creech, F. Caldwell, A. Abel, G. Nickerson, R. Word, E. Alexander, J. Myers, J. Freels, J. Rose, M. Turner, R. Walker, G. Wolfenbarger, J. Bourne, B. Thompson, E. Kindricks, E. King, H. Roberts, I. Brogden.

The following are also squad captains:

L. Gentry, A. Ogle, D. Young, V. Anderson, R. Patterson, M. Cates, I. Blazer, F. Remine, C. Colby, N. Best, M. Hillard, C. Brakebill, L. Ward, C. Beaman, R. Brantly, D. Kiser, B. Carter, F. Ogden, L. Allred, L. Allen, E. Ward, R. Link, H. Chamberlain, A. Hensley, H. Bales, E. DeArmond, H. Todd, J. Wilson, M. Henderson, M. Atchley, D .Brooks, M. Wolf, D. Lenville, S. Baker, R. Maples, D. Dudley, S. Buchanan, H. Otto, M. Elgin, M. Caldwell, E. Ables, K. Hobbs, M. Poore, L. Miller, D. Henritze, J. Vineyard, M. Armstrong, F. Howell.

Health Chats

By Miss Grace McDougall

Every lesson in biology has for its foundation or background some definite rule of health? A few of those principles underlying biology are here briefly mentioned.

Metabolism in a single cell means a balanced condition of tearing down the cell for the production of energy and the rebuilding of the cell by means of proper foods and rest.

This same term is applied to the entire body of each boy and girl. Take inventory and see if you are being fair to your body. Are you furnishing to it the nourishment and rest necessary to bring about this healthy balanced condition?

To win success in this world of competition each one of us must do all in his power to make the factor of environment count for all it is worth. How about your surroundings? Are you doing anything toward their improvement?

Cleanliness and fresh air are two outstanding virtues of environment. Fill your lives with both.

Microbes, our little invisible one-celled plant and animal neighbors, may be either friends or enemies.

These organisms have many means of admission to the body: by broken skin, mouth and nose passages, or mixed with the food they pass to the stomach and intestines. But in any case if the body is in a healthy normal condition, there invading microbes can be killed by natural antitoxins manufactured by the cells of the human body.

The white corpuscles also are ever ready to pounce upon bacteria, either to devour them or carry them from the body. So build a good clean blood stream.

Companionship in your life makes impressions that can seldom be erased. Choose your associates carefully that you may make your environment safe.

Habits are important parts in our lives, so consider well those principles that make good habits permanent possessions.

The use of stimulants and narcotics are detrimental habits. They cause irritability of the nerves which prevents normal activity of the organs of the body. Avoid the use of them. In their place put health-promoting activities and interesting hobbies.

Knowledge gained by direct observation of plant and animal life in biology sticks in our minds more tenaciously than matter obtained from books. A greater appreciation of nature develops from this study and leads us to a more wholesome method of living. A happy way of looking at life results and acts on the body somewhat like oil on the working of machinery, prevents friction, so this opticism enables the body to carry on work more smoothly.

Dr. Sharp says come in, we'll cheat you right. Doctor is just a boy, So girls, give him a break.

Boys, have you ever noticed how Josephine Lea's eyes sparkle.

Society and Clubs

By PATRICIA WHITMORE

ELLIS MAYES was elected president of the Junior Red Cross Tuesday. Other new officers elected were Eugene Grant, vice-president, and Wanda Jenkins, secretary. A nomination committee of three selected the candidates.

The February issue of the "Junior Red Cross Journal" was distributed to the class representative and will be read to the class during group period.

A "Ways and Means Committee" was appointed by the president.

—o—

MEMBERS of the Junior Forum spoke on various topics at their regular meeting Tuesday. Each member listed topics which he wished discussed. The slips were then taken up and shuffled. Each member drew from the lot and discussed one topic. Senator Borah, Al Smith, cold wave, shortage of coal, and present conditions of schools were subjects of the discussions.

—o—

TWO important results were derived from the concert given last Monday night by the Transylvania band.

In addition to the certain entertainment of the program, the Knoxville high school band received a profit of forty-six dollars. This money will be used to buy music and other band necessities.

—o—

"RESOLVED that 'Mercy Killing' should be Legal", was the subject of debate at the Open Forum on Monday, February 10.

Albert Hobts and Georgia Carey upheld the affirmative, while Tommy Martin and Bill Herron represented the negative.

The judges unanimously decided in favor of the negative side. Everyone in the Forum, but two or three, was against Mercy Deaths.

A skating party is being sponsored by the Forum on Saturday night, February 22, at Chilhowee Park Skating Rink, if the building can be obtained. All clubs are urged to support this event, as it is being given in an attempt to send delegates to a convention to be held at Memphis sometime in March.

At the same meeting LeRoy Cole was formally initiated in the Forum. An appropriate pin for the club was selected.

—o—

NEW officers were elected at the "Swas-tika" club, which met Saturday, February 8, at the home of Barbara Rule. Margaret Ann Brown was elected president; Katherine Rinearson, vice-president; Barbara Foust, secretary; and Martha Jean Osborne, treasurer.

After the election, a social committee was appointed and plans were made for a party to be held sometime during February.

—o—

INSTEAD of the regular weekly meeting, last Monday, the cabinet of the Junior Girl Reserve club met to make plans for taking in new members next Monday, and for the tea, to be held February 24, in honor of the rushees. The president, Mary Ruth Bibb, presided. Rachael Patterson, chairman of the Program committee, will be in charge of the programs for the coming year.

—o—

AT the last meeting of the Sketch club, Felicia Parker was elected to serve as president for the current term. Jimmie Speer, who was formerly elected, had resigned.

Programs for the coming meetings were discussed. Louise Dobbins was appointed program chairman, with Martha King and Sam Kaserman as assistants.

Among the outstanding events, the club has planned are a week-end sketching trip to Gatlinburg and a skating party. The dates of these activities will be announced later.

Anyone who is not taking art at the present but is interested in joining the club, is invited to attend the next meeting which will be held Thursday, February 20.

—o—

OFFICERS of the Home Economics club met Friday, February 7, to plan the term's activities.

A Valentine party is to be held in the Home Economics department immediately after school today. All members are urged to come and bring their dues.

—o—

MEMBERS of the chemistry and physics classes met in room 113 Thursday evening to organize a science club.

J. C. Lowery, sponsor of the club, said that interesting trips were made by the organization to various chemical industries during the spring term. Any junior or senior taking a science subject is eligible for membership in the club.

—o—

"THE Parade of the Presidents" was on! and those attending the assembly hall this week, viewed the procession.

A humorous burlesque on Skippy amused the audience, while Chrystal Champs, a Grantland Rice sport reel, created intense interest.

A bit of travel is always enjoyable, especially when one imagines himself in the shoes of the photographers. The travelogue, "Canal Gypsies" of England, was therefore entertaining as well as educational.

Wednesday morning new tickets were sold in home groups, entitling the student to attend the twelve additional movies by paying five cents each week. The number of tickets sold this term is 945, surpassing last term's number by eight. Students wishing to buy tickets will be given a final chance to do so next week.

—o—

MEETING for the first time this year, Wednesday, February 12, members of the Spanish club elected the following officers for this term: Fay Griffin, president; Carl Niles, vice-president; Ruth A. Link, secretary; Janice Graybeal, treasurer.

MORE ABOUT
SENIOR HI-Y
(Begins on Page 1)

Louis Martin, Sam Newman, Kenneth Rule, William Sherrod, Fred Thornton, George Vestal, Joe Woodruff, and Arthur Wright.

The complete program for the semester is as follows:

February 20, Johnny Walker—"Relationship of Hi-Y to the School".

February 27, L. F. Hurley—"Relationship of Hi-Y to the Y. M. C. A. in Choosing a Vocation".

March 6, General business meeting.

March 12, Best girls' banquet.

March 19, Discussion.

March 26, Vocational speaker.

April 3, General business meeting.

April 24, Hi-Y dance.

April 30, Discussion.

Mary 7, Mother and Son banquet.

May 14, Vacant.

May 21, Election of officers.

May 28, Best girls' banquet.

75 Outstanding Pupils Will Get N.U. Scholarship

Awards To Be Made for Work In Journalism, Dramatics and Debate.

(Begins on Page 1)

build and design stage sets and scenery along with their studies in play production, stagecraft, diction, acting, and make-up. Several days during the semester will also be devoted to trips to publishing plants, theatres, broadcasting stations, museums, and concerts in Chicago and vicinity.

Students will live in the men's and women's quadrangles at the university under the supervision of instructors. At the close of the session three scholarships to Northwestern, each worth $200, will be awarded to students whose work has been meritorious during the summer.

Further information may be secured from the Director of the National Institute for High School Students, Northwestern University,, Evanston, Illinois.

MORE ABOUT
ART STUDENTS
(Begins on Page 1)

be a banquet followed by a dance. This will take place at the Maxwell House, an emblem of southern hospitality.

This is the first time that the two leagues have held a joint convention. The Southeastern League, a young organization, is acting as host at the meeting. It has been customary for the Western League, an older and more established association, to hold its convention in such cities as Chicago and New York. Therefore this meeting is not only an honor for Nashville but for all Tennessee.

Mrs. Wanda Wheeler, supervisor of art in the Knoxville city schools, is president of the Southeastern Art League and will attend the convention with many other Knoxville art teachers.

MORE ABOUT
GRUEN
(Begins on Page 1)

next best papers will receive Gruen wrist watches.

A committee of four distinguished judges will award the prizes. These judges are Dennis F. Burns, president of Xavier University; Julian Morgenstern, president of the Hebrew Union College; Robert A. Taft, former speaker of the Ohio House of Representatives; and Raymond Walters, president of the University of Cincinnati.

LIVES
Of Our Teachers

THIS WEEK—
Miss Lucile Evans
Head of Language Department

(This is the third article in the "Lives Of Our Teachers" series. Next week Miss Jessie Neubert is interviewed as the fourth teacher.—Editor)

By C. EARL WALLACE

MODESTY, sincerity, and culture probably mark the most noticeable traits of Miss Lucile Evans, Latin teacher, at K. H. S. When asked for this interview she unprtentiously informed me that all that had happened in her life wasn't important enough for a write-up in a newspaper. But I think she was mistaken about that. How could anyone be so reserved and unassuming and not be interesting copy? I maintained my perseverance and finally she reluctantly presented some facts of her life.

She was born in Jacksonville, Florida and lived in the sunny city until nine years old. . . . Came to Knoxville and attended public schools until she entered the University of Tennessee where she later received an A. B. degree. . . . Earned an M. A. dégree from Columbia University.

Obtained her first teaching position at Knoxville high school as a language teacher several years ago. . . . Was elected head of the department when it was organized almost three years ago. . . . Latin is the only subject she teaches, but is quite learned in other foreign languages.

Like all other interesting people, she has her hobbies to make life more interesting. . . . During the winter, when the weather won't permit anything else to be done, she is content to enjoy a good book during her spare hours. . . . Likes movies but hardly ever has time to attend them. . . . During the summer time she has her flower garden as a hobby. . . . Lives on Scott street in North Knoxville. . . Incidentally, she first moved on that street when it was still considered the near outskirts of this city.

Principal Urges Pupils To Realize Need For Safety

Statistics Show Too Many Accidents Among High School Students.

"K. H. S. is Safety Conscious".

This is the aim of Principal W. E. Evans as shown in recent talks pertaining to safety. Statistics show that a large percentage of traffic accidents happen among high school students and this information should be a challenge to students and should make them determined to lower the fatality rate.

That Knoxville is becoming safety conscious is clearly shown by the crowds attending the safety school now being held at the University of Tennessee under the supervision of N. W. Dougherty, U. T. professor.

Tuesday, Burton Marsh, of the American Automobile Association, spoke to the convention on "Safety Legislation"—its aspects as a national and state problem.

The tabulate recently released by the National Safety Council shows that ninety-nine thousand Americans died in accidents last year—one every six minutes. The total bill for Americans' carelessness added up to approximately $3,000,000,000 in property damage, wage loss, and medical expense.

"If Knoxville is becoming conscious of this great need for safety ,why shouldn't K. H. S. students set an example for other schools to follow? If in going to and from school, the pupils would obey the traffic rules, many accidents would be averted."

This is the opinion of principal Evans in urging students to heed the warnings of traffic signals, especially in the uptown district.
